

Mostafa Kazemi

Senior Frontend Engineer

Istanbul, Turkey | Open to Remote Worldwide | mostafa.kazeminejhad@gmail.com | +98 918 344 6857 | mostafakazemi.com | github.com/mostafakazemi | linkedin.com/in/mostafakazemi

SUMMARY

Senior Frontend Engineer with 6+ years of experience building scalable web applications, browser extensions, reusable component libraries, and modern frontend architectures.

Specialized in React, Next.js, Vue, Nuxt.js, TypeScript, frontend performance optimization, and developer tooling.

Experienced in remote collaboration with international teams and delivering production software used by thousands of users.

Strong background in frontend architecture, testing strategies, design systems, state management, and maintainable codebases.

Open to remote contract, freelance, and long-term engineering opportunities.

SELECTED ACHIEVEMENTS

- Built and maintained browser extension products integrated with educational platforms.
- Developed reusable component libraries and frontend systems shared across multiple applications.
- Worked across React, Next.js, Vue, and Nuxt.js ecosystems in production environments.
- Contributed to frontend architecture, testing strategy, and performance optimization initiatives.

SKILLS

Frontend: React, Next.js, Vue.js, Nuxt.js, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS

State Management: Redux, Redux Toolkit, Pinia

Testing: Cypress, Playwright, Vitest, Jest

Tooling: Vite, Webpack, Storybook, npm, Git

Architecture: Design Systems, Component Libraries, Frontend Architecture, Browser Extensions, REST APIs, Performance Optimization

EXPERIENCE

Senior Frontend Engineer - Sazito

Jun 2022 - Present | Part-time

- Developed and maintained large-scale React and Next.js applications in the e-commerce domain.
- Built reusable frontend components and scalable UI systems for multiple products.
- Improved performance, maintainability, and developer experience through modern frontend practices.
- Worked extensively with TypeScript, Redux, state management, and API integrations.
- Contributed to frontend architecture decisions and long-term product scalability.

Technologies: React, Next.js, TypeScript, Redux, REST APIs, Tailwind CSS

Frontend Engineer - Jack Westin (US-based Remote Team)

Jun 2022 - Present

- Developed and maintained production Vue.js and Nuxt.js applications used by thousands of MCAT students.
- Built browser extension features and integrated frontend experiences with third-party educational platforms.
- Developed reusable UI systems, component libraries, and frontend infrastructure shared across multiple products.
- Contributed to frontend architecture, testing strategies, performance optimization, and developer experience improvements.
- Collaborated remotely with international cross-functional teams in a production environment.

Technologies: Vue.js, Nuxt.js, Vue 3, TypeScript, Browser Extensions, Cypress, Storybook, Component Libraries

Frontend Developer - Chamedoon

Apr 2020 - Jun 2022

- Developed and maintained production Vue.js and Nuxt.js applications.
- Built responsive user interfaces and integrated frontend applications with REST APIs.
- Worked extensively with Vuex state management and TypeScript.
- Improved application performance, maintainability, and code quality through refactoring and optimization initiatives.
- Collaborated closely with product and backend teams to deliver new features and improve user experience.
- Contributed to testing, debugging, and long-term maintainability of the frontend codebase.

Technologies: Vue.js, Nuxt.js, Vuex, TypeScript, JavaScript, REST APIs, Sass, CSS, HTML5, Git

EDUCATION

Bachelor of Software Engineering

University of Ilam, 2012
